Lessons from academia

Challenges:

- Balancing research, teaching, supervision, organization, and valorization
- Tenure-track pressure
- Funding cycles

Lessons from industry

Challenges:

- Impact & speed: Tighter timelines, product-focused
- Cross-functional team collaboration and communication
- Adapting to business priorities, sometimes limited freedom

ORGANIZATION

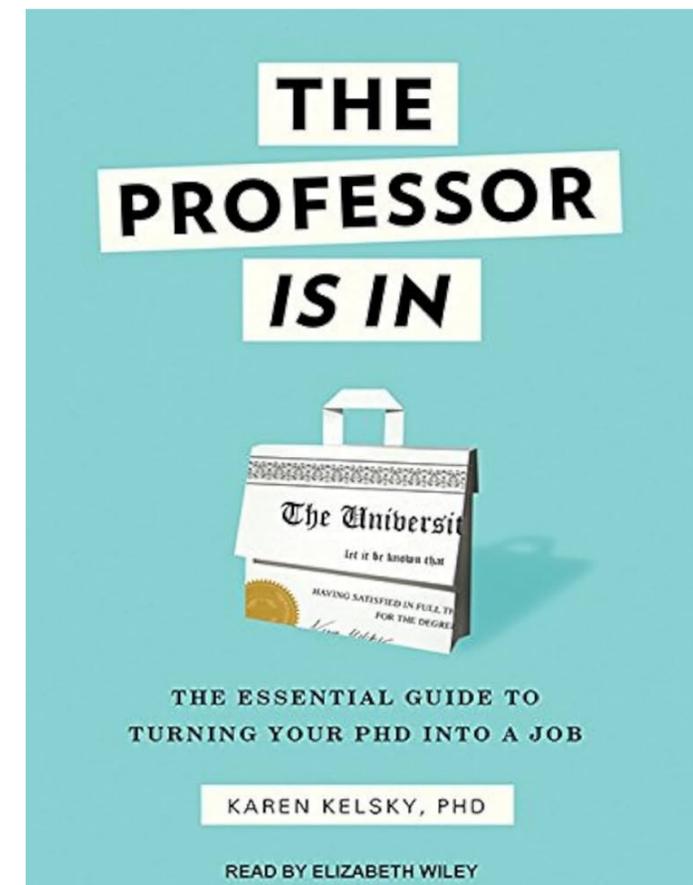

Transitioning between roles & fields

- Embrace new roles
 - Learning on the fly
 - Networking & internal advocacy
-
- Heads-up
 - Cultural shifts
 - Overcommitment
 - Burnout

Academic job hunting tips & strategies

- Clarify your academic focus
- Clear vision and future research agenda
 - How is your vision built upon your past work?
- Visibility & networking
 - Give talks
 - Organize workshops
- Interview & job talk preparation
 - What's your funding plan?
 - Who will you collaborate with in the new institute?
 - What's your teaching philosophy?

Conclusion and Q&A

- It's a marathon
- Plan ahead to stay ahead
- Don't go it alone—seek advice, share, and learn
- No single “right” path
- Follow your heart
